VENUE: M.S.R ADVANCED LEARNING CENTRE, BANGALORE (Ganagangotri campus, New BEL road, M S Ramaiah nagar, Bengaluru- 560054)

This unique modular course for Oral and Maxillofacial Surgeons is aimed to provide practical experience in the most common procedures that the surgeon is likely to face in their practice. The programme consists of lectures with videos and cadaver demo procedures, following which the participants will have the opportunity to carry out the same procedures on individual cadavers.

The course faculty consists of experienced faculty known for their expertise in the specific areas they are demonstrating and allows one to one interaction and supervision. The course is supported by multiple industry partners who will provide the armamentarium and materials for participants to practice with during the cadaver procedures

This is a limited attendance course Hands on practical sessions- 20 participants maximum Lectures and observation only- 50 participants maximum
