01.00 PM (KOREA) | 01.00 PM (JAPAN)**

MESSAGE

Dr. Tetsu Takahashi

Executive Director – Asian AOMS

It is my great pleasure to announce you that 5th Trainee conference will be held by Webinar with the great help of AOMSI. COVID -19 is still prevalent all over the world including Asia. This Pandemic deprived all of us of attending the scientific meetings, conferences and social activities. However, we cannot stop educating young Oral and Maxillofacial trainees in Asia because Asia is growing center for the Oral and Maxillofacial sciences. So, our society, Asian AOMS took the maneuver to turn this disaster into a blessing. Trainees do not have to go to the conference venue across countries waving travel fee. This time, we also set a special Prize “Best Paper Presentation Awards”. Please don’t hesitate to participate and get the prize. Let’s enjoy the conference!

Dr. Tian Ee Seah

President– Asian AOMS

These are strange times that we live in. Due to this global pandemic, the 14th Asian Congress on Oral and Maxillofacial Surgery which was originally scheduled to take place in Singapore has been postponed to the 4–6 June 2021. In its place, we have brought forward the 5th Young Asian Oral and Maxillofacial Surgeons Conference. True to this new world, this conference will be conducted via video conferencing. Learning should never stop with or without a pandemic. On behalf of the Asian Association of Oral and Maxillofacial Surgeons, I wish all of you a fruitful and successful 5th Young Asian Oral and Maxillofacial Surgeons Conference.

Dr. Gunaseelan Rajan

Chairman, Organizing committee, Education Affairs
Asian AOMS

The Asian Association of OMS has turned the COVID disaster into an opportunity for the young trainees of our specialty in Asia to participate in the Virtual Conference tailor-made for them! I am happy to welcome all of you to the 5th Asian Trainee OMS conference which will be organized by OMS Team India supported by AOMSI. It is a double privilege for me since we had also organized the first Asian Trainee conference in Mangalore, India several years ago. The Scientific Program is a half day program on 24th October 2020 with guest lectures by eminent faculty who will teach and inspire young minds. The conference will also offer a great opportunity for trainees across Asia to compete for several best paper category awards. It will be a great occasion for trainees to connect across Asia. Hoping to see an enthusiastic participation from all countries in our region.

KEYNOTE PRESENTATION

TMJ ARTHROCENTESIS /ARTHROSCOPY AND OPEN SURGERY ; PIT FALL AND PEARL

Dr. Ken-ichiro Murakami (Japan)

Visiting Professor,
Kanagawa Dental University and Ako City Hospital, Japan
