

AVDHOT DENTAL AND IMPLANT CLINIC

DR RUSHIT PATEL 9824115092

Our centre's primary strength lies in the sheer volume and diversity of clinical cases you will encounter with more than 300 implant surgeries performed annually. Furthermore, you will gain critical proficiency across a wide spectrum of global implant systems, including Nobel Biocare, Straumann, Osstem, Dio, Neodent, Zimmer, Gdiff, and Adin, among others. This diversity ensures you develop confidence regardless of the system you use in your future practice.

Beyond conventional implant placement, our curriculum is deeply focused on mastering complex and advanced surgical interventions. Fellows are trained extensively in: Direct and Indirect Sinus Lift procedures.

Ridge Split technique and Guided Bone

Regeneration (GBR), Pterygoid implant surgery and Guided All-on-X Implant surgeries.

To support this high standard of practice, we utilize cutting-edge armamentarium, notably including a dedicated Piezoelectric Surgery Unit, ensuring you train with the modern technology expected in world-class surgical settings.

Along with Clinical experience, we also encourage and indulge in research, innovation and education, striving for better knowledge to facilitate clinical practice.
