

**GANGA**  
MEDICAL CENTRE & HOSPITALS PVT LTD

## FELLOWSHIP OVERVIEW

### About the Fellowship

- High-volume, multidisciplinary centre with strong focus on trauma, reconstruction and microsurgery.
- The matched AOMSI candidate joins the Maxillofacial Unit within the Department of Plastic, Hand, Reconstructive and Faciomaxillary Surgery.
- Two-fellow training format ensuring close supervision, skill progression and meaningful clinical responsibility.
- Primary exposure to maxillofacial trauma with additional experience in other maxillofacial procedures.
- Training across key subspecialties within the maxillofacial field to broaden clinical and surgical competence.

### Fellow Responsibilities

- ✓ **Academic Participation**  
Attend morning class and contribute actively to unit-based academic activities.
- ✓ **Inpatient Care**  
Join daily rounds and take part in clinical discussions, decision-making and follow-through.
- ✓ **Outpatient Involvement**  
Participate in evaluations, treatment planning and continuity of care in the OPD.
- ✓ **Operating Room Training**  
Work in the operating theatre with responsibility increasing according to progress and direction from the fellowship director.
- ✓ **Professional Development**  
Train within a system built on observation, hands-on experience, critical thinking and independent decision-making.
